Management Comments

Commenting on the results, Mr. Manish Mohnot, MD & CEO, KPTL said:

“We have delivered a robust performance at consolidated level with double-digit revenue growth, stable EBITDA margin, record order inflows including L1 and notable decline in net debt. Despite the challenging operating environment laden with inflated input prices and competitive pressure, we continue to drive value accretive growth in our chosen business verticals by expanding international presence and strengthening our market position with a cautious approach. This is reflective in our record order inflows and L1 position in core T&D, B&F and Water businesses along with widened international presence in three new countries during the year.

As part of our strategy to strengthen our core EPC business, we have achieved divestment of T&D BOOT assets. Simultaneously, we are working on sustainable solutions for our Road BOOT assets and divestment of other non-core businesses.

In the near-term, we expect the operating environment to continue to remain challenging. In this scenario, we will manage our business with agility, with continued focus on improving project delivery and high emphasis on maintain healthy margins. We will continue to drive consistent and profitable growth through strengthening core business verticals, scaling up international markets, cost management and optimal investments.”
